+91 8895055405

Passionate B.Tech. graduate with practical experience as a Associate Consultant. Skilled in a variety of programming languages and web technologies, including C, C++, Python, Java, PHP, HTML, CSS, JavaScript, React, Node.js, Laravel, Angular, and MongoDB. Proficient in backend development, with a track record of completing diverse projects in e-commerce, stock market prediction, and e-exam portals. Recognized with numerous national and international awards, including a silver medal in the Indo-Sri Lanka championship.

EXPERIENCE

Associate Consultant

August 2024 – Present

Invincix Solutions Pvt. Ltd.

Role: Backend Development & Support Engineer

Technologies Used: PHP, Laravel, MySQL, Angular, Bootstrap

Key Responsibilities:

- Develop and maintain backend functionalities for smooth operations.
- Developed REST APIs for seamless integration between frontend and backend systems.
- Optimize SQL queries and refine server-side scripts for improved system performance.
- Assist in migrating legacy systems to modern frameworks for enhanced scalability and performance.

PROJECTS

Stock Market Prediction

Machine Learning

- Developed robust stock market prediction model using Python.
- Implemented regression algorithms (linear, ridge, lasso) for accurate stock price forecasting.
- Conducted thorough evaluation and selected best-performing model.
- Demonstrated expertise in Python programming, quantitative analysis, and financial domain.

Geninvinci Timesheet

Laravel, MySql

- Built a web-based app for time tracking and project management.
- Used PHP Laravel, Bootstrap, jQuery, and AJAX for modern functionality.
- Features include historical timesheet access, customizable workweeks, and project progress tracking.
- Implemented a manager dashboard for easy timesheet review and approval.
- Leveraged MariaDB and MySQL Workbench for backend infrastructure.
